# NDHA *Queen & Princess*

## 2023 NDHA Queen Josie Dallman

I am Josie Dallman and I will be serving as the 2023 North Dakota Hereford Queen. I was raised in Lehr, ND where I helped my dad with his commercial beef operation, and later built a registered Hereford herd of my own. My

passion for the beef industry and the people in it, was established then but continues to grow as I see more and more of the work that is put into raising cattle, firsthand. And this is the reason I applied to be the Hereford princess in the first place and continue to serve as the queen for one more year. It has also guided me into my future career path. Right now, I am attending college at Valley City State University, where I am studying Business Administration with a concentration in Agribusiness and a minor in Marketing. With this degree, it is my plan to work as an ag loan officer, so that I can help farmers and ranchers succeed in their business. As for my year as the queen, I plan to help with establishing a different look to the North Dakota Hereford Field Day and get to as many bull sales as I can. I hope to see you all along the way!

## 2023 NDHA Queen Princess Olivia Waddington

My name is Olivia Waddington, and I am going to be sixteen in April 2023. The journey to buying my Herefords started when I was little. My dad would help me buy lambs to bottle feed and sell. After doing that for about two years I upgraded to raising bummer calves. I would bottle feed them and then when they were weaned, would grain them and eventually sell them as feeders. I did this for quite awhile, and when I was nine years old Dad helped me buy my first two heifers. I was very excited to have my business started. Eventually we realized that these cows weren't very tame, so we sold them and bought a milk cow. The first year she calved the calf was still born! I was so disappointed. I was not making money as easily as I had thought I would. The next year we bought a different milk cow with a beautiful heifer calf at her side. I was really happy. For the benefit of making some profit off of my small business, I bought three bummer calves to raise on the milk cow which meant LOTS of chores. I had to go out morning and evening to grain my cow and let the calves nurse etc. I was very busy. For the next three years I bought bummer calves, raised them on the milk cow and sold them for a small profit. Through buying and selling I now have, two milk cows, (one with a calf at her side). Five purebred Hereford cows and I am in the process of buying more Herefords from Mrnak Herefords. I am now getting a good calf crop. I don't have to buy any bummer calves and I am consistently making a profit.

I also have a small home-made beauty product business called "Balm Bay Products." It started out as a small idea of selling bath bombs until it grew into making several different products, buying ingredients, buying rights to the picture for my labels, designing the labels, planning, expenses, and eventually the pay off! I travel to craft fairs and sell my products. I am also working on getting my products in some small local stores. I am so glad that I followed through on these endeavors despite the hard work and costs. Out of all of my businesses and past times my favorite are my Herefords. I am so thankful to have the opportunity to be the North Dakota Hereford Princess. I will do my best to promote and support the Hereford breed.

—Ryan Topp

## MARKETING PROGRAMS FOR TOPP-SIRED CALVES

### **Feeder Calf Marketing Options**

Through a variety of feeder programs, ranging from spot sales to forward contracting, we can help you capture the added value of your Topp Herefords-sired calf crop.

### **Baldy Heifer Calf Buyback Program**

In partnership with Pitz Farms in Iowa, Topp Herefords buys back about 2,500 head annually of first cut, replacement-quality open heifers from our bull clients and the program is expanding.

### **Retained Ownership Opportunities**

Some of our clients were leaving money on the table by not retaining ownership to the kill floor, so we are working to introduce our bull customers to the option of retaining ownership of their calves to the rail.

### **Crossbreeding Simplified**

Maximize the number of TH-sired calves that qualify for the TH marketing programs with replacement-quality, front end, Angus sired females bred to Topp Herefords bulls.

# AM I FULL OF CRAP?

Calf scours are not inevitable. A strong prevention program is non-negotiable. Dependable scour prevention is essential for calf welfare, employee morale and business profitability. The immune system's response to vaccination is variable and unpredictable. That's why giving preformed antibodies instead of relying on a vaccine to stimulate antibody production is so important. I'm all for removing uncertainties. So yes, I stand by this product. (And no, I'm not.)

*In times like these we need to*  
**STICK  
TOGETHER.**

We need to stick together and provide a strong, unified voice for our industry. For more than nine decades, the North Dakota Stockmen's Association has provided that voice for our state's cattle ranchers. The organization's strength comes from grassroots members like you, and the more members we have, the more effective we are. We need to stick together, and we invite you to join the NDSA.
