Dear North Dakota Hereford Breeders,

The American Hereford Association just closed out fiscal year 2017, and it has been another great year with all business within AHA seeing growth.

There has been a lot of great things that have come out in the last year, the first being the growth of the Hereford Advantage program, the first ever National Junior Hereford Association Fed Steer Shootout, and the development of a new ad campaign, "The Bald-Faced Truth about Hereford Genetics".

As we move forward, there will be a new pricing structure for DNA testing that will make it more affordable.

Effective Monday, Oct. 2, 2017, the AHA offers a new, lower pricing structure for DNA testing. Any animal tested from Oct. 2, 2017, and on will have a genomic profile completed, in addition to the abnormalities and available parentage already included with the DNA testing. DNA TESTS AVAILABLE: Genomic Profile (parentage profile, genetic abnormalities & GE-EPDs): \$38 Full Package (Genomic profile plus horned/polled test): \$58 Add on Horned/Polled Test (adding this test after the original profile has been done): \$30 GE-EPD Upgrade from basic profile (animals previously tested after 1/1/2015 for basic profile only can be upgraded to GE-EPD profile, upgrade request must be made by April 1, 2018): \$20

(...continued from Levi Landers' letter)

If the requesting breeder is a compliant Whole Herd Total Performance Record (TPR™) breeder, those animals will receive genomic-enhanced expected progeny differences (GE-EPDs). In addition to these new DNA prices, AHA will also be offering members a \$4 credit, per animal, on their AHA account when using the new Tissue Sample Unit (TSU) to submit a DNA sample, rather than using hair. The credit will occur when the animal's DNA results are received from the lab, verifying the DNA sample was submitted as a TSU. If the tag options offered by the AHA, don't meet your needs, feel free to place your order directly with Allflex or order your TSU's from any other supplier, just make sure they are manufactured by Allflex.

I am excited about all the DNA testing that can be done, however remember we still need all the phenotype that can be attained to be turned into the system as well. This will only ensure that the accuracy of EPD's will remain high and attribute to the success of the Hereford breed.

I look forward to seeing everyone the first weekend of December for the annual meeting, banquet, and North Star Classic Show and Sale. If you have any questions regarding the AHA please contact me at any time and I will gladly help.

All the best, Levi Landers

There's a reason a tried and true black baldie is the most favored cow in America's cow herd. She's accountable, predictable, profitable and sustainable. Her calf and her steer mates are in demand, regardless of end point.

The stakes have never been higher to create **value** and **efficiency** throughout the production system. In the past decade, Hereford has documented dramatic improvements in calving ease, weaning and yearling performance and end product merit.*

Reduce your risk. Improve your opportunity for profitability.

You want it all in your beef operation?
Then take it.

HEREFORDS. Accountable. Predictable. Profitable. Sustainable.

* The Spring 2015 Hereford Pan-American Cattle Evaluation (PACE) documents consistent improvements in all traits of economic importance. From 2004 to 2014, AHA Genetic Trends indicate a 14% reduction in birth weights, 20% improvement in weaning and yearling performance and a 30% improvement in end product merit. JUNIORS

November 2017

Junior National Hereford Expo

The Junior National Hereford Expo (JNHE) is the highlight of most Hereford youths' summer activities. It is held each July, and is co-sponsored by the AHA and affiliated junior and state Hereford associations.

Known to many as the ultimate family vacation, the JNHE provides an opportunity for competition of both junior members and their cattle projects. A hands-on type of program for youth provides educational, leadership and motivational forums. During the event youth can participate in more than 20-skill based contests.

2018 Junior National Hereford Expo will be July 1-7, 2018 at Nebraska State Fairgrounds in Grand Island, NE. A group from ND plans on attending – any juniors going to Junior Nationals and participating in any of the activities will receive \$200 each from the NDHA to help with the costs. There is a great set of heifers in the NSC Sale that make some great show heifers. Junior Advisors, Steve Wolff, Logan Hoffman and Joana Friesz can answer your questions.

County Achievement Days

The NDHA pays \$50 for Grand and \$25 for Reserve to juniors that win supreme with their Hereford heifer or steer. Please email photo to joana@northlandinsuranceagency.com by December 15th if you qualify.

Andrew Dosch Memorial Grant for the NSC Hereford Sale for Juniors

Given by Larry and Richard Tinjem , Powers Lake, ND, in memory of Andrew

Andrew was a very special young man. He didn't come from a ranch or farm background but was very active in FFA in high school and had a dream of having a ranch and a herd of cattle someday. We were in a position to help him achieve that dream and were privileged to work with him for five years. He was an enthusiastic promoter of the Hereford breed. The first bulls he purchased were from Perman Herefords and Mrnak Herefords in 2014 and 2015. He was going to buy a few registered heifers this fall and one of his goals was to someday own a bull from Van Newkirks in Nebraska.

Andrew Dosch started in the cattle business in 2009 when he purchased nine Hereford heifers from Tinjum Herefords at Powers Lake, ND. Andrew was born September 19, 1986, at Harvey, ND. At a young age he moved to Powers Lake with his parents, Dennis and Lovera. There he and his three brothers and three sisters grew up and attended school. Andrew always had a strong work ethic and started mowing lawns with his brother, Nick, when he was thirteen years old. He began part-time employment at the Powers Lake Cenex while in high school which continued as summer employment during his college years.

He graduated from Powers Lake High School in 2005, attended Dickinson State University for a year and then transferred to NDSU where he graduated in 2010 with an Agricultural Education degree. He started his teaching career at Gackle, ND where he taught for two years. Andrew was very active in FFA in high school, served as a ND State FFA Officer in 2005-2006 and was an FFA advisor at Gackle and later at Stanley, ND.

In 2012 he returned to Powers Lake and established Dosch Hereford Ranch—a cow-calf operation. He also worked at Powers Lake Cenex for three years and then taught Ag Ed at Stanley for a year. While working at Cenex, Andrew met the love of his life, Samantha Fraser and her two children, Jaylynn and Jeremy. They became engaged and were soon to marry.

Andrew's Catholic faith was very important to him and he served his parish of St. James in many ways. He was a member of the Knights of Columbus, North Dakota Stockman's Association and served as a Vanville Township Supervisor and Burke County Commissioner.

He was an outgoing young man who developed many friendships across the state during his high school, FFA and college years. Andrew Dosch died unexpectedly at St. Mary's Hospital, Rochester, MN, on August 4, 2017.
